Dear Madam:

Re: USSWORD Infringing Use of Registered Marks

We have your letter of October 15, 2011. We disagree with a number of the assertions you make in your letter. However, we are writing to clarify the question of the revised name adopted by the association. The University does not object to your association using the name: University Senators in Saskatchewan Working to Revive Democracy (USSWORD). The University does not view this name as violating University policy or the University's official mark.

Yours truly,

McKercher LLP
