

 ELIZABETH MAY

 SANDRA FINLEY

 GREEN PARTY OF CANADA

Do you ever feel as though it doesn't matter who you vote for, the government always gets in? Are you tired of recycled promises at election time? Maybe it's time to turn over a new leaf: a green leaf. The Green Party of Canada offers a real alternative to the mainstream parties. Most Canadians want to see Greens in Parliament, and we're working hard to make that dream come true.

Our candidates are not career politicians. We are parents, teachers, students, small-business owners, farmers, lawyers, and professors. We are immigrants and native-born, Metis and Afro-Canadian, young and aging with gusto. What we share is our commitment to a better future for us all: a healthy planet, a resilient economy, and strong and honest democracy.

As Green Party of Canada candidates, we want to be your voice, speaking up for your values. We want to protect our Canada by ensuring real prosperity, diverse and creative cities, and compassionate and vibrant communities.

For more information about the Green Party of Canada, contact your local candidate, or go to our website at www.greenparty.ca. You can write me at emay@greenparty.ca, and I'll write you back. I promise. And I keep my promises.

It's time. Vote Green.

Green Party Candidate, Saskatoon-Humboldt

Important issues

- Corporatocracy or True Democracy? Move corporations out of Government and Universities.
- "Small" nuclear reactors are still reactors. I am in solidarity with the people of Japan (Fukushima). We do our part to stop the nuclear industry. After Fukushima, the world is "no" on nuclear. The Govt of Sask sent \$30 million (our money) to the University earmarked for nuclear industry. Conflicts-of-interest ignored. University backdoors for industry. Nuclear reactors for Tar Sands suck up all the money. Token money for Renewable energy and conservation unless we fight for it.
- The South Saskatchewan River is the most threatened in Canada. Don't run the well dry. Cattle operations, each with 36,000 cattle? No. We need a National Water Policy.
- Census: "guilty" is under appeal. Not Lockheed Martin (American military) in Canadian census. Smart, ethical economy is not an economy based on war.
- Learn from George Bush in Saskatoon. Requested arrest. No one is above the law. Bush was not arrested. The leadership of Canada believes no one cares if they break the law. No rule of law means no Democracy. Danger zone. We have to stand up for democracy.
- We paid down debt. From \$.37 out of every tax dollar down to \$.14 for debt servicing. In last 3 years the Govt has piled up more than \$100 billion in debt. Nice for bankers and their friends. Not nice for us. I want the Green Smart economy.

STRONG COMMUNITIES

SMART ECONOMY

TRUE DEMOCRACY

Strong communities are the roots of a growing Canada. The Green Party has a plan to promote health, affordable housing, accessible post-secondary education, youth employment, and the quality of family life.

A smart economy skates to where the puck is going. The Green Party will create secure jobs and economic prosperity by investing in green industry based on renewable energy, reducing waste, and adding value to resources.

Canadian democracy is in trouble. Power is increasingly centralized. Individual MPs are little better than extras in a B-grade movie. Question Period showcases behaviour that would earn a 'time out' in the schoolyard. Let's restore true democracy, based on respect and equality. And let's remind MPs who the boss is — you!

CANADIANS WANT A GREEN GOVERNMENT

"We need to put Elizabeth May into the House of Commons so that she can speak honestly to Canadians."
— Margaret Atwood, author

"If you don't like the menu on offer, try something new. Vote for the Green Party."
— Susan Riley, journalist

"The Green Party is the one political party committed to averting the consequences of continuing to treat the Earth as mere dirt beneath our feet."
— Farley Mowat, author

Only Green MPs can change the climate in Parliament! No other party offers the sustainable approach to our economy, our communities, and Canadian democracy that we do. We're proud of our vision of Canada, and we want to share it with you. Ask your local candidate or find out more at:
