

October 12th - 2013

People around **the world** will

unite to

**March
Against**

Why?

Independent research studies have proven that Monsanto's **GMO** foods can lead to serious health conditions such as the development of cancer tumours,

Scientists are refuting the integrity of Monsanto's claims that GMO's are safe.

Monsanto's GMO's threaten your freedom of choice & our food freedom.

What are **solutions** we advocate?

Demand GMO's are labeled so that consumers can make informed decisions.

Call for further scientific research on the health effects of GMOs.

Hold **Monsanto executives** and **Monsanto supporting politicians** accountable.

A moratorium on GMO's.

For Growers

Are you putting **all your eggs** in Monsanto's basket?

Do you **think** that GMO's are a **benefit** to you?

Are GMO's **more important** than bees?

Do you **value** your **freedom of choice**?

Do you agree with Monsanto's **control** and **contamination** of seed stocks?

Are you willing to **risk markets** because of GMO **contamination**?
