

CONTENTS

Foreword / David Schindler
Preface / Karen Bakker
Acknowledgments
Acronyms

Part I: Muddy Waters

1. Introduction / Karen Bakker
2. Great Wet North / John Sprague
3. On Guard for Thee? / Dianne Draper and Dan Shrubsole
4. Out of Sight, out of Mind? / Linda Nowlan
5. Challenging the Status Quo / Rob de Loë and Reid Kreutzwiser

PART II: Whose Water?

6. Whose Water? / J Owen Saunders and Michael M. Wenig
7. Drawers of Water / Frédéric Lasserre
8. Thirsty Neighbours / Ralph Pentland and Adèle Hurley

PART III: Liquid Gold

9. Commons or Commodity? / Karen Bakker
10. Liquid Gold / Ted Horbulyk
11. Trading our Common Heritage? / Randy Christensen and Anastasia Lintner

Part IV: Waterwise

12. A Tangled Web / Paul Muldoon and Theresa McClenaghan
13. Are the Prices Right? / Steve Renzetti
14. Moving Water Conservation to Centre Stage / Oliver Brandes, David Brooks and Michael M'Gonigle

Part V: Water Worldviews

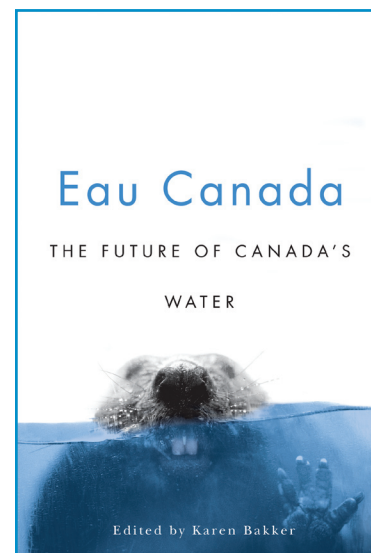

15. The Land is Dry / Ardith Walkem
16. Half-empty or Half-full? / Andrew Biro
17. Rising Waves, Old Charts, Nervous Passengers / Cushla Matthews, Bob Gibson, and Bruce Mitchell
18. Conclusions / Karen Bakker

Appendix; Bibliography; Index

Eau Canada

The Future of Canada's Water

Karen Bakker

Canada has long been seen as a land of natural bounty — a country of lush forests, abundant agriculture, and pristine lakes. Even as the sustainability of many of our resources has been questioned, Canadians have remained stubbornly convinced of the unassailability of our water. Mounting evidence suggests, however, that Canadian water is, in fact, under threat.

Eau Canada assembles the country's top water experts to discuss our most pressing water issues. Perspectives from a broad range of thinkers — geographers, environmental lawyers, former government officials, aquatic and political scientists, and economists — reflect the diversity of concerns in water management. Arguing that weak governance is at the heart of Canada's water problems, this timely book identifies our key failings, explores debates over jurisdiction, transboundary waters, exports, and privatization, and maps out solutions for a more sustainable future.

Water is arguably the most important resource of our time. How we govern it today has critical consequences for our future. *Eau Canada* provides a powerful discussion of the most controversial and pressing water issues facing Canadians today.
